Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am a middle-low class working mother. With this increase I will not be able to afford my tracfone. My 9 yr old son will not be able to contact his mother in case i am away from work. To raise the charge on all wireless phones will put alot of working mothers at a disadvantage as well as not being able to afford thier phones too. To understand us maybe you need to walk a mile in our shoes. The ones we look forward to hearing from, whether its a bruise on the knee, or help with their english homework. This is the only way they can contact us don't take that away from them.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Kathy Williams
